Date: 18/02/22	How am I doing?		
Area of Maths: Addition		Teacher	Me
WALT add 3 single digit numbers	Do it		
	Stretch It		
	Solve it		

Do it

- Find and circle the number bonds to 10.
- Then use these to add the three single digit numbers.

a) $4 + 2 + 6 =$

b) $3 + 5 + 7 =$

c) $4 + 2 + 8 =$

d) $3 + 9 + 1 =$

e) $5 + 9 + 5 =$

Stretch it

Colin thinks:

$$6 + 4 + 3 = 14$$

because... $6 + 3 = 10$

and then... $10 + 4 = 14$

What has he done wrong?
Explain why he is incorrect.
Remember: Point, Explain, Answer

Solve it

True or False?

$9 + 3 + 2 > 12$

$1 + 8 + 2 < 15$

$6 + 8 + 5 = 5 + 5 + 7$

$8 + 5 + 3 < 8 + 1 + 2$

$6 + 4 + 7 > 3 + 4 + 5$
